## **Untitled (Tonic) 2023**

Structured Light

IRL Art Gallery, Denver, CO

In reaction to a world saturated by overstimulation, I seek a counternarrative. In Structured Light, I use projectors and LEDs to cast light in highly minimalist arrangements of form and color. By using light as a sculptural medium, I seek to deliver an experience that is quiet, still, and sublime.

## **Marfa Memory Magic 2023**

Public Good

Colorado State Capitol, Denver, CO

In Marfa Memory Magic I use a custom algorithm to blend and blur a collection of photographs I took on a recent trip to Marfa, Texas. With this piece, I submit a stylized abstraction of my experience of falling in love into the public domain. If anything, I hope it can be reminder to myself and others that above all else, Love reigns supreme.
